

# Network Engineering - Racks-PDU-Eficiencia Energetica

Network Engineering España S.L.

## Power Distribution Units PDU

Basic PDU (4)

Metered & Switch PDU (23)

C13 outlet PDU (14)

C19 outlet PDU (11)

DIN49443 Schuko PDU (2)

IEC 60309 outlet PDU (6)

3 Phase 208 VAC PDU (1)

3 Phase 400 VAC PDU (9)

Network Engineering PDU's are available in 2 ranges: Basic and Monitored/Controlled. Within each range, we have standard configurations, and we can manufacture made to measure solutions, choosing power input (from 1 x 16A to 3 x 63A) and different outlet combinations (C13-C19-DIN 49440 Shuko-CETAC-NEMA .....). Our pdu's have unique characteristics, like Anti-fail C13 outlets, up to 8 environmental sensors per pdu on our IP PDU range, including our unique airflow sensor, SNMP control (SET and GET), 4 monitoring & control types..... a wide list that make our pdu's unique.

power distribution units

### INTELLIGENT PDU

4 monitoring & control types. Up to 8 environmental sensors per pdu.  
Vertical models up to 48 outlets.  
Horizontal models up to 14 outlets.

### BASIC PDU

Diferent outlet configurations.  
Vertical & horizontal models.
