

Network Engineering - Racks-PDU-Eficiencia Energetica

Network Engineering España S.L.

Racks

[Racks Cooper Delta3 \(0\)](#)

[Racks Cooper NR Network Rack \(0\)](#)

Network Engineering is Spain's exclusive distributor for Cooper B-Line, british rack manufacturer, part of EATON multinational group, leader in different areas, like electrical switching and Uninterruptible Power Supplies. Its main rack ranges are Delta3 (Delta cube) and NR (Network Rack)

DELTA3

Delta3 is a rack with aluminum frame with flexibility and configurability unmatched by any manufacturer. Options available are endless, you may have straight and curve front doors, vented above 83%.

NR NETWORK RACK

Network Rack is a rack with steel frame that offers assembly and configuration flexibility at a very high level. Glass doors, or vented above a 75%. Free of weldings, all its components are screwed together, so you can reconfigure the rack in future.
